According to an IRS revenue ruling, participating properties base their rents on the income limits published by HUD. HUD or IRS does not require participating property owners to raise rents based on updated income limit calculations. To the extent that owners increase rents, given the purpose, is to keep units affordable. HUD encourages owners to increase them no more than what is needed to keep pace with rising costs and recognizes that to promote housing stability, incremental increases are easier for tenants to absorb than sudden significant increases.
